Dear Parent/Guardian,

Melrose High School is committed to providing a technology rich environment for our students as our community believes the use of Information and Communication Technology (ICT) is fundamental in assisting teaching and learning in all areas of the school curriculum.

The use of web based learning resources and cloud based storage has risen steadily over the last decade and are increasingly being used by teachers across the Directorate to improve student learning outcomes.

Teachers make decisions designed to assist students in their learning. Sometimes it is beneficial for the student to utilise services provided by third party web based providers. Types of services provided by these service providers include online content creation, collaborative tools, online educational games and various administrative programs for tracking student assessment data.

As our school wishes to register with a web based service provider that requires some personal information about a student in your care, I am obliged under the Information Privacy Act 2014 (ACT) to advise you of the reasons for collecting the information, what will be done with it and who else may have access to it.

The below site(s) have been identified as being a useful component in the teaching programs in many classes at Melrose High School. Please be aware that these platforms can constitute a major part of the teaching and learning programs including assessment, and that your child's exclusion from using the platforms may restrict their learning opportunities in their classes.

Please indicate your consent/non-consent for each of the services listed by ticking the appropriate option, signing this form and returning it to the school to record on your child's file.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Simon Vaughan'.
